Continuous
Improvement, Quality
and Eco-friendly
Products is the
foundation of our
business approach

- 
- A background image for the list section showing a close-up of a hand holding a small green seedling with several leaves. The background is a cloudy sky.
- Headquarter: Germany
 - Factory : from 1976 / Istanbul
 - Employee: 220
 - Production Capacity: 5000 pcs/year
 - Production Facility: 20.000 m2
 - 4 Subsidiaries

International Standards

All production process is monitored and developed according to ISO 9001

Quality Control System

All MAK PP Systems products comply with EU directives concerning safety, radio frequency emissions, electromagnetic compatibility (EMC), voltage peaks, over voltage and static charges.

MAK PP Systems is accredited with ISO 9001 , ISO 14001-2004, ISO18001 , CE , TSEK, SONCAP, GOST, UKREXPO.

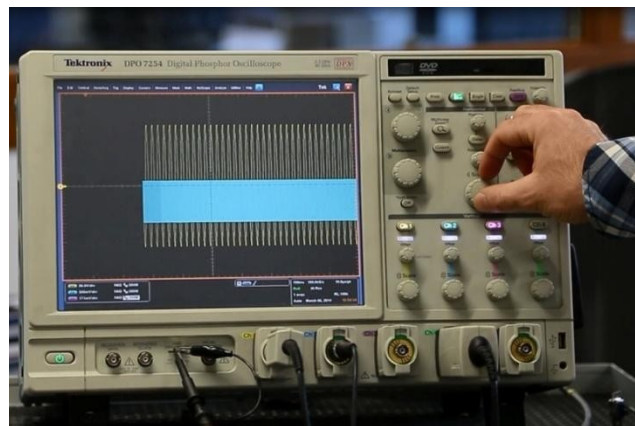

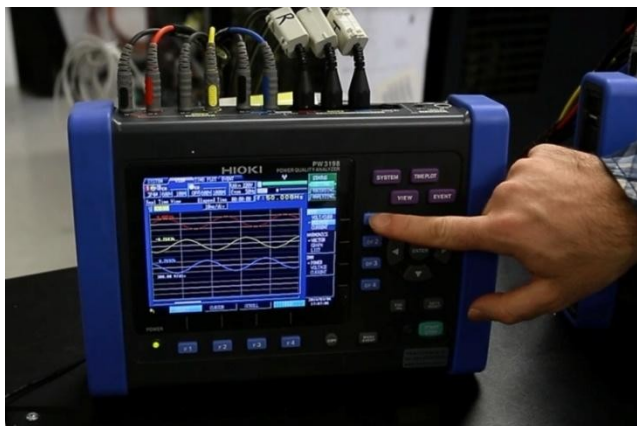

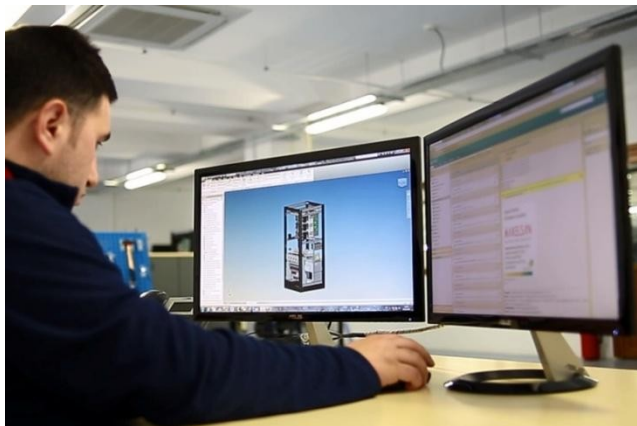

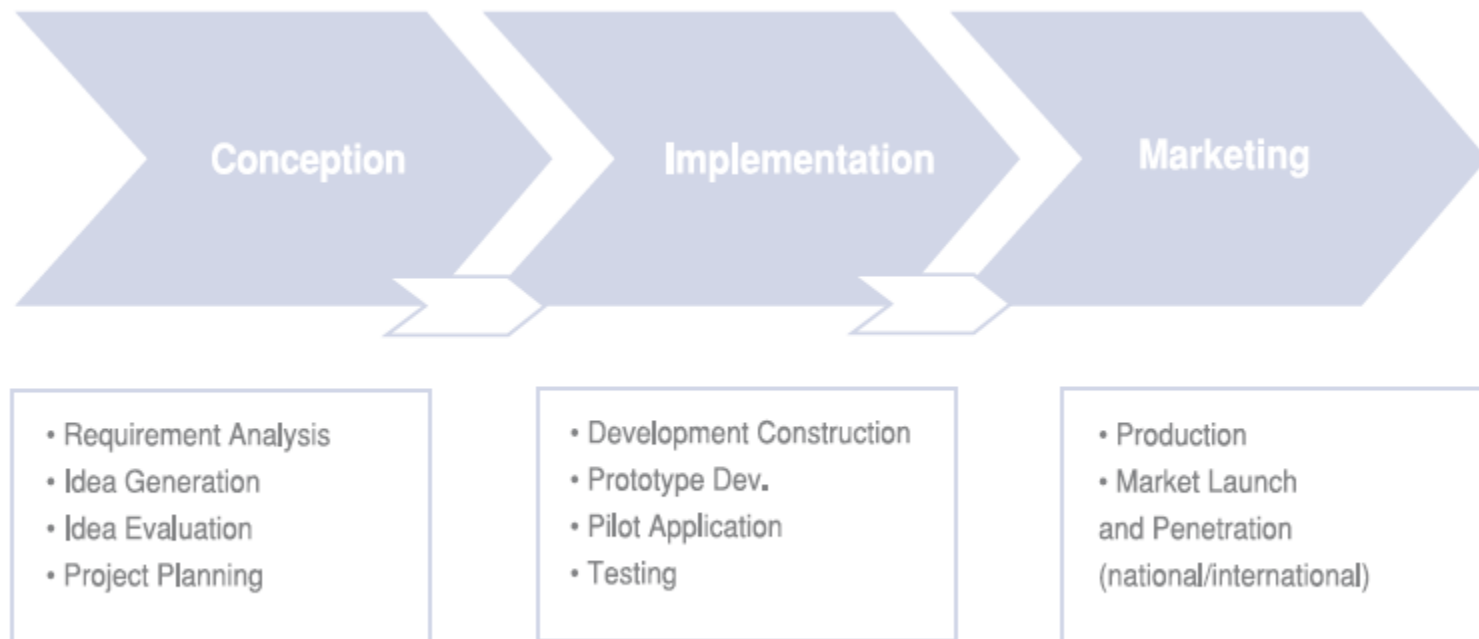

“ Mak PP System UG Products are distributed through selected suppliers more than 50 countries ”

“We are dedicated to ensure
the customer’s benefit
through development and
improvement of leading
technologies”
