

BATT-MAK Seismic Zone Protected Battery Cabinets

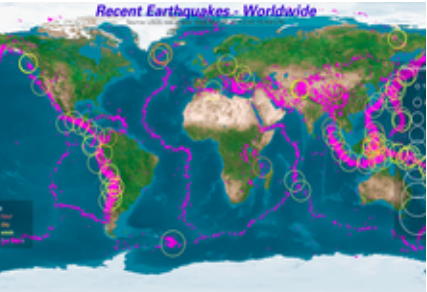

For Earthquake & Vibration Areas

- Strong vibration protection
- Robust and simulated production
- Fixable to the ground protection
- Anti static paintings
- Vibration reduced feet
- Battery protection under vibrations
- Protection for all kind of earthquakes
- Thicker materials
- Advanced battery protection with cooling
- Till Magnitude 9 protected
- AGM, GEL or NiCd Battery Solution
- Adjustable for different battery solutions
- Anti rust protection
- Dimension 1000mmx1000mmx1750mm & 140kg

Industrial Applications

Earthquakes Map

Customized Solutions

Used for Different Power Range Solutions
