SRV-MAK Series Servo Voltage Stabilizer

3kVA – 60kVA Single Phase

- Microprocessor Control
- User Friendly
- High Safety

- ✓ TECHNOLOGY
 - High efficiency
 - Steady operation
 - Maximum sensibility

- ✓ RELIABLE
 - Wide input voltage tolerances
 - Automatic Activation
 - Short circuit, lightning and over voltage protection
 - Overload protection

- ✓ USER FRIENDLY
 - Reduced weight/volume/footprint
 - Failure / warning / situation indicator with light
 - Graphic LCD panel
 - Multilanguage option
 - Advanced data and event record
 - 128 real time event log
 - intelligent fan control
 - Fan backup
 - Bypass switch (standard)
 - Protection unit (standart)
 - 10 years spare part warranty
 - 7/24 technical support and customer service

- ✓ STANDARDS
 - CE, ISO 9001:2008, ISO 14001, GOST
